

HW10 Chrome Dev Tools

1. Message Logging + Browser Messages

The screenshot shows the Chrome DevTools console with the following content:

- Info: Zorp is currently pretending to understand JavaScript. [tools.js:2](#)
- Warning: Zorp is dangerously close to eating the debug button. [tools.js:9](#)
- Error: Zorp tried to divide snacks by zero. [tools.js:15](#)
- Array(3) [tools.js:19](#)

(index)	name	mood	status
0	'Zorp'	'Suspicious'	'Watching the console'
1	'Debug Goblin'	'Chaotic'	'Creating bugs'
2	'Snack Button'	'Nervous'	'About to be clicked'
- Zorp Secret Debug Report [tools.js:40](#)
 - Zorp blinked. [tools.js:41](#)
 - The console noticed. [tools.js:42](#)
 - Everything got weird. [tools.js:43](#)
- Zorp says: style your logs, not your bugs.** [tools.js:51](#)
- GET <http://127.0.0.1:5500/coffee> 404 (Not Found) [tools.js:67](#) (4)
- Uncaught TypeError: Cannot set properties of null (setting 'textContent') at HTMLButtonElement.<anonymous> ([tools.js:55:47](#)) [tools.js:55](#)
- [Violation] 'click' handler took 2999ms [tools.js:58](#)
- [Violation] 'click' handler took 2999ms [tools.js:58](#)
- [Violation] 'click' handler took 2999ms [tools.js:58](#)

2. Reproduce a Bug

```
// Intentional Bug
document.querySelector("#calculateSnacks").addEventListener("click", (e) => {
  const snack1 = document.querySelector("#snack1").value;
  const snack2 = document.querySelector("#snack2").value;
  let calculateResult = snack1 + snack2;
  document.querySelector("#snackResult").textContent = `Zorp has ${calculateResult} snacks`;
});
```

Chrome DevTools Practice

View my console logging, browser error, filtering, and debugging examples for Project 2.

Debugging Practice

This snack calculator has an intentional bug for debugging practice. Try adding two snack amounts, then use Chrome DevTools to pause the code, inspect the variables, and figure out why Zorps math is acting suspicious.

 Zorp has 43 snacks

Z

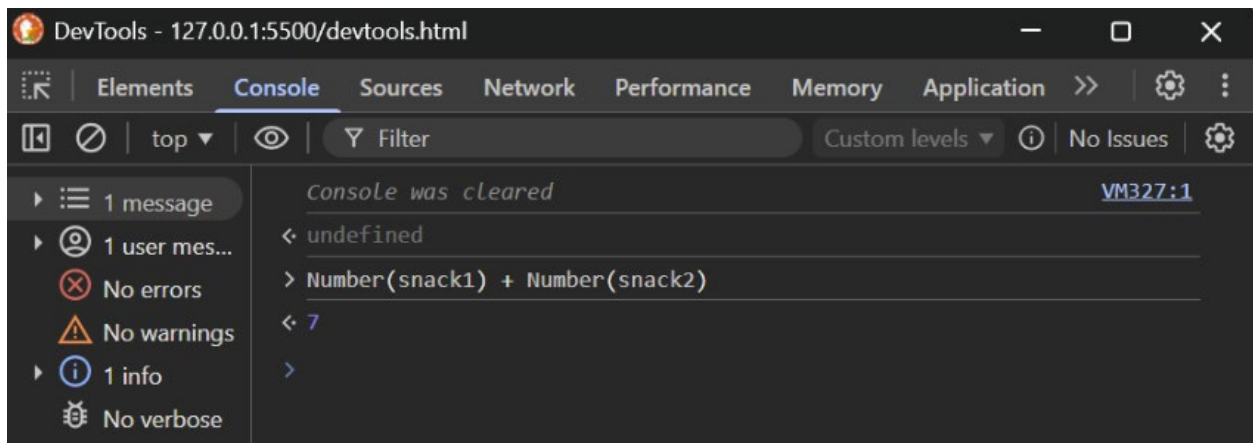

3. Sources UI / Breakpoint / Scope Pane

The screenshot shows the Chrome DevTools interface. On the left is the 'Debugging Practice' page with two input fields containing '4' and '3', a 'Calculate' button, and a log panel with buttons for 'Log Info', 'Log Warning', 'Log Error', 'Log Table', and 'Log Group'. The main pane shows the 'Sources' view with a JavaScript file containing a function that calculates the sum of two snack amounts. A breakpoint is set at line 73, which is highlighted in yellow. The 'Breakpoints' pane on the right shows the breakpoint is active. The 'Scope' pane on the right shows the current scope, including 'this: undefined', 'calculateResult: <value unavailable>', 'e: PointerEvent {isTrusted: true, pointer...', 'snack1: "4"', and 'snack2: "3"'.

4. Watch Expressions

5. Console While Paused

6. Apply a Fix

```
// Intentional Bug
document.querySelector("#calculateSnacks").addEventListener("click", (e) => {
  const snack1 = document.querySelector("#snack1").value;
  const snack2 = document.querySelector("#snack2").value;
  let calculateResult = Number(snack1) + Number(snack2); //applied fix
  document.querySelector("#snackResult").textContent = `Zorp has ${calculateResult} snacks`;
});
```

Debugging Practice

This snack calculator has an intentional bug for debugging practice. Try adding two snack amounts, then use Chrome DevTools to pause the code, inspect the variables, and figure out why Zorps math is acting suspicious.

 Zorp has 7 snacks

7. Filter by Log Level: Showing only warning messages

8. Filter by Text: Showing only messages that contain “console.”

The screenshot shows the Chrome DevTools Console with the 'Console' tab selected. The filter bar at the top contains the text 'console'. The left sidebar shows a list of messages: 8 messages, 8 user messages, 1 error, 1 warning, 6 info, and 'No verbose'. The main console area displays a table of data from 'tools.js:18' and a 'Zorp Secret Debug Report' from 'tools.js:39'.

(index)	name	mood	status
0	'Zorp'	'Suspicious'	'Watching th...
1	'Debug Gobli...	'Chaotic'	'Creating bu...
2	'Snack Butto...	'Nervous'	'About to be...

Array(3)

Zorp Secret Debug Report [tools.js:39](#)

The console noticed. [tools.js:41](#)

9. Filter by regular expression

The screenshot shows the Chrome DevTools Console with the 'Console' tab selected. The filter bar at the top contains the regular expression '/Zorp|Warning/'. The left sidebar shows a list of messages: 8 messages, 8 user messages, 1 error, 1 warning, 6 info, and 'No verbose'. The main console area displays several messages, including an info message, a warning, and an error, followed by the same table of data from 'tools.js:18' and the 'Zorp Secret Debug Report' from 'tools.js:39'.

Info: Zorp is currently pretending to understand JavaScript. [tools.js:2](#)

Warning: Zorp is dangerously close to eating the debug button. [tools.js:8](#)

Error: Zorp tried to divide snacks by zero. [tools.js:14](#)

(index)	name	mood	status
0	'Zorp'	'Suspicious'	'Watching th...
1	'Debug Gobli...	'Chaotic'	'Creating bu...
2	'Snack Butto...	'Nervous'	'About to be...

Array(3)

Zorp Secret Debug Report [tools.js:39](#)

Zorp blinked. [tools.js:40](#)

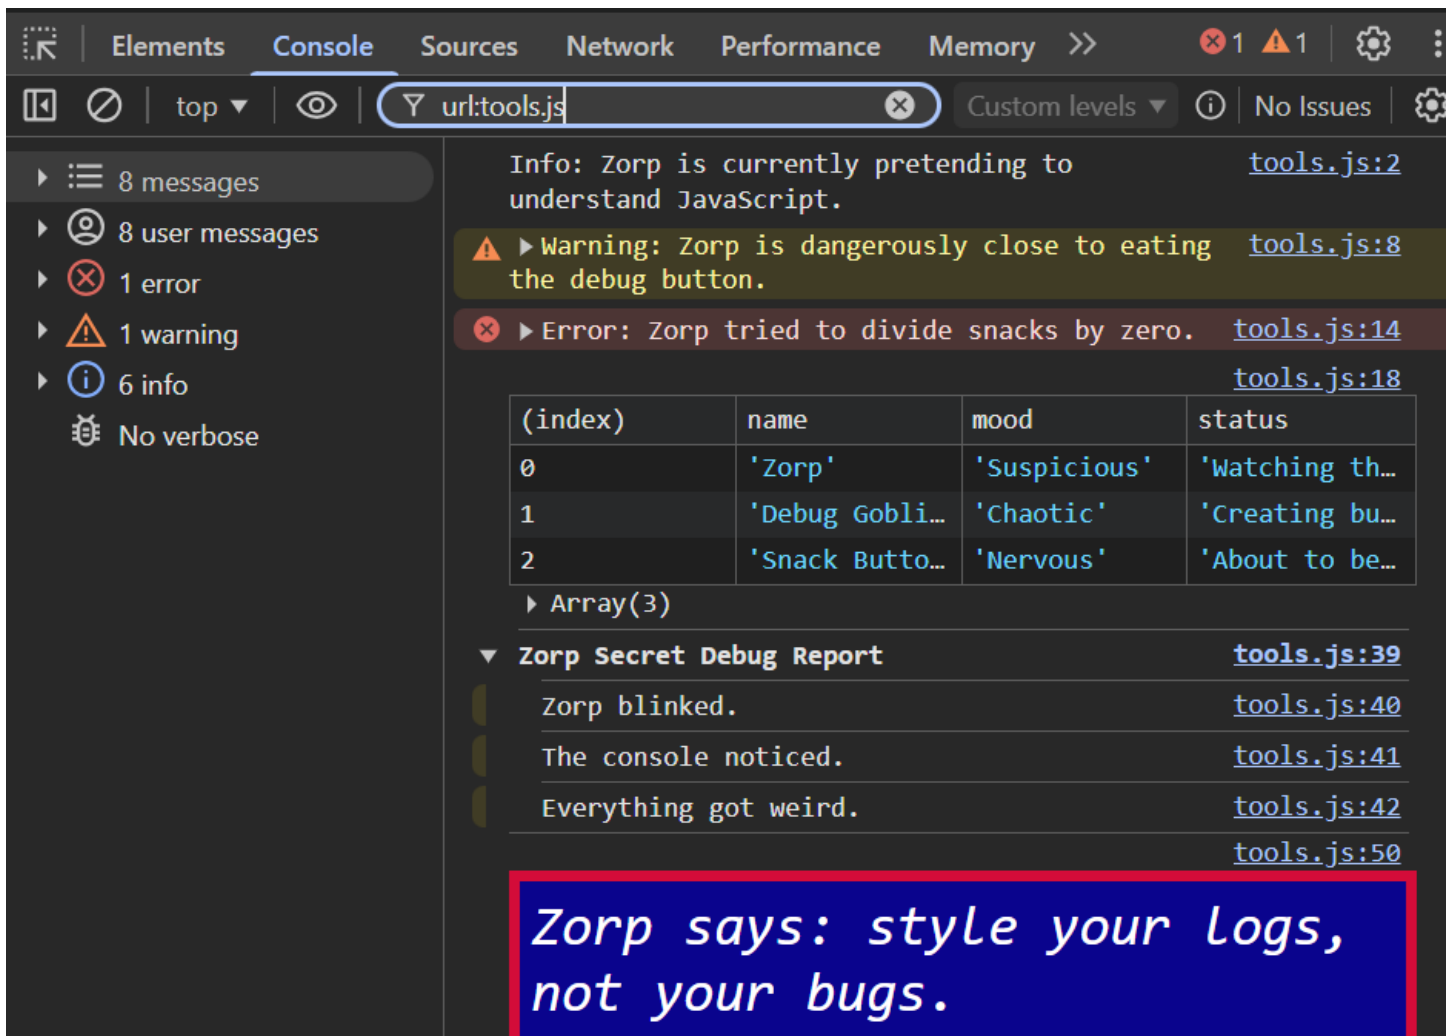

The console noticed. [tools.js:41](#)

Everything got weird. [tools.js:42](#)

[tools.js:50](#)

Zorp says: style your logs, not your bugs.

10. Filter by message source

Elements Console Sources Network Performance Memory >> 1 1

top url:tools.js Custom levels No Issues

8 messages

8 user messages

1 error

1 warning

6 info

No verbose

Info: Zorp is currently pretending to understand JavaScript. [tools.js:2](#)

Warning: Zorp is dangerously close to eating the debug button. [tools.js:8](#)

Error: Zorp tried to divide snacks by zero. [tools.js:14](#)

(index)	name	mood	status
0	'Zorp'	'Suspicious'	'Watching th...
1	'Debug Gobli...	'Chaotic'	'Creating bu...
2	'Snack Butto...	'Nervous'	'About to be...

Array(3)

Zorp Secret Debug Report [tools.js:39](#)

Zorp blinked. [tools.js:40](#)

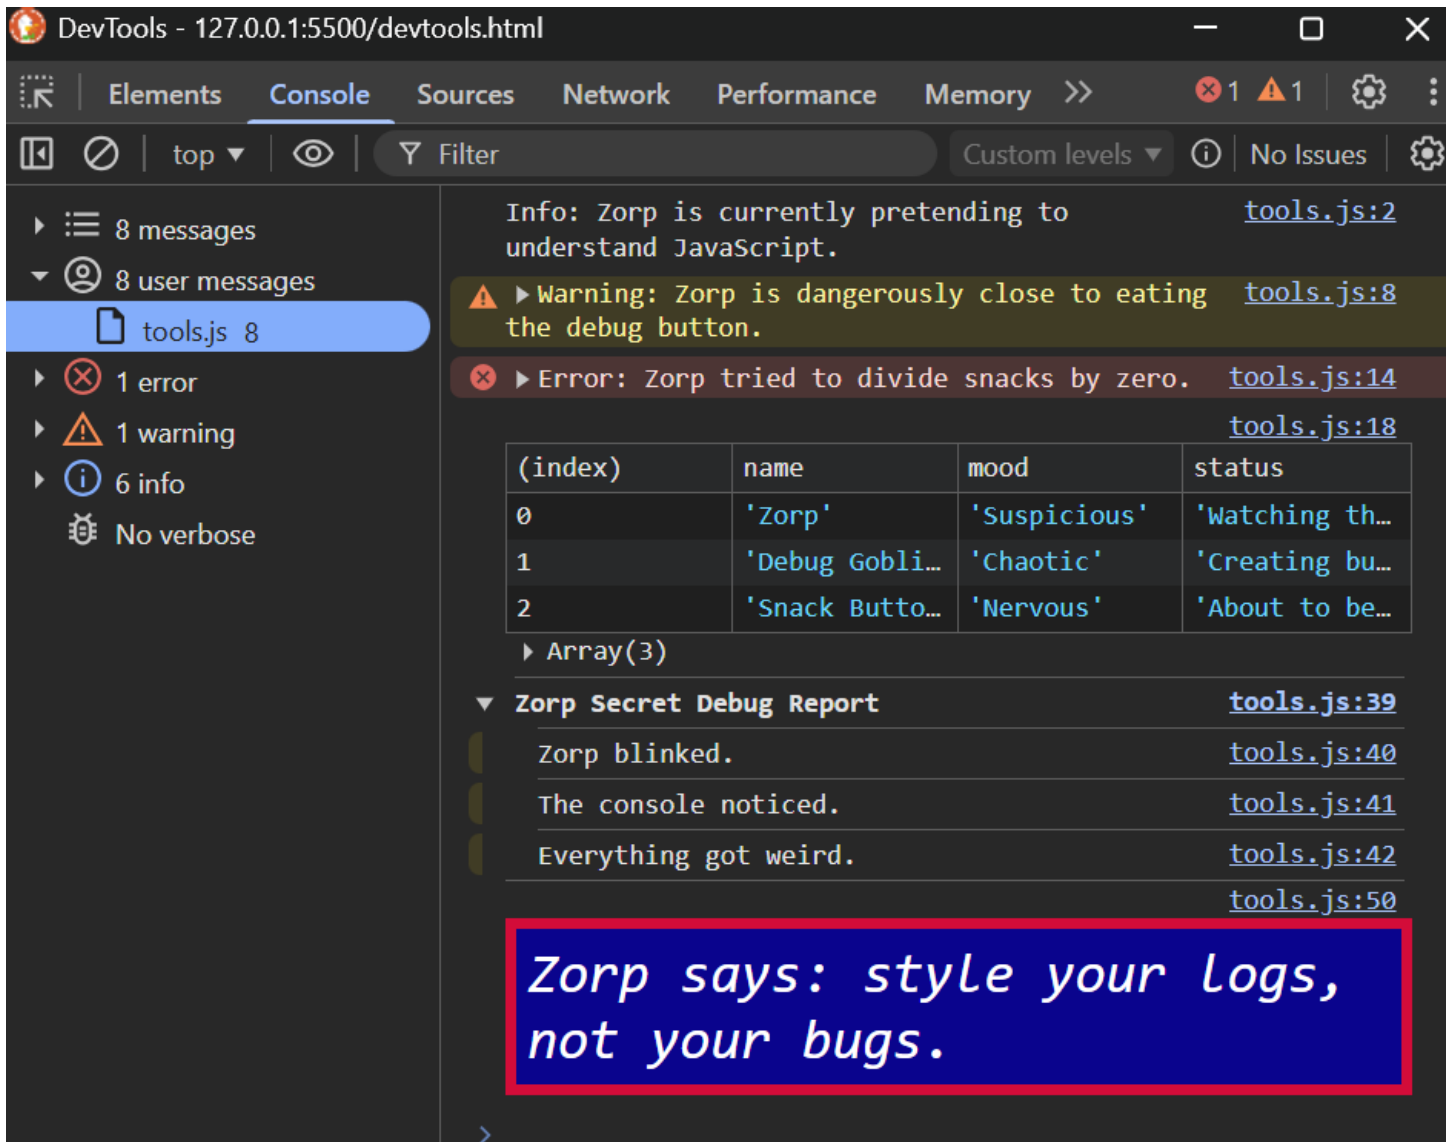

The console noticed. [tools.js:41](#)

Everything got weird. [tools.js:42](#)

[tools.js:50](#)

Zorp says: style your logs, not your bugs.

11. Filter by user messages: howing messages created by my project's JavaScript file.

The screenshot shows the Chrome DevTools Console with the 'Console' tab selected. The left sidebar shows a list of messages filtered by the file 'tools.js'. The main panel displays the following messages:

- Info: Zorp is currently pretending to understand JavaScript. [tools.js:2](#)
- Warning: Zorp is dangerously close to eating the debug button. [tools.js:8](#)
- Error: Zorp tried to divide snacks by zero. [tools.js:14](#)

Below the error message, there is a table with 4 columns: (index), name, mood, and status.

(index)	name	mood	status
0	'Zorp'	'Suspicious'	'Watching th...
1	'Debug Gobli...	'Chaotic'	'Creating bu...
2	'Snack Butto...	'Nervous'	'About to be...

Below the table, there is a message: `Array(3)`.

Below the array, there is a section titled 'Zorp Secret Debug Report' with the following messages:

- Zorp blinked. [tools.js:40](#)
- The console noticed. [tools.js:41](#)
- Everything got weird. [tools.js:42](#)

At the bottom of the console, there is a blue box with the text: *Zorp says: style your logs, not your bugs.*
